📅 DAY 9 TASK – AEM Development

Date: 28/03/2025

Project: 🌐 **NewsRoom Portfolio Website**

🔨 1. Home Page

Path: /content/us/en/news

Component: 📰 **News Component**

Each article must include:

- 📄 Title – Clear and engaging headline

- 📒 News Details – Complete story with context

- 📅 Published Date – Clearly shown for user reference

Steps to Implement:

1. Go to Sites in AEM.

2. Create a new page under: /content/us/en/news

3. Add the News Component and populate it with relevant data.

4. Repeat to create five unique news article pages.

🔨 2. Header Section

Purpose: Ensure consistent site-wide navigation.

Navigation Menu Includes:

- 🔭 News

- 📇 Contact Us

- 👤 About Me

Steps to Create:

1. Go to Experience Fragments in AEM.

2. Create a Header XF (Experience Fragment).

3. Add a Navigation Component with appropriate links.

4. Attach this Header XF to all page templates.

🪓 3. Footer Section

Purpose: Enhance UX with quick access and site info.

Footer Sections:

- 🗞 News Menu – Show 4 articles via the List Component

- 👤 About Me – Use Text Component for a short bio

- 📞 Contact Us – Use Text Component for contact info

- 🔗 Social Media – Use List Component with external profile links

Steps to Build:

1. Create a Footer XF in Experience Fragments.

2. Add all the above sections with their respective components.

3. Attach this Footer XF to all templates.

🪓 4. Contact Us & About Me Pages

📫 Contact Us Page

- Shows Phone Number, Office Address, and Email

- Use Text Components for clarity and formatting

👤 About Me Page

- Showcases the Journalist's Profile

- Use Teaser, Image, and Text Components for rich storytelling

Steps:

1. Create /contact-us and /about-me pages.

2. Add suitable components to reflect the content.

3. Maintain a clean, modern, and professional layout.
